Sports Activities-Students and Faculty

Dear Student

Welcome to the DAVIM family. We are a community of learners that promotes academic excellence. DAVIM continues to promote traditional values while adopting contemporary infrastructure and pedagogies. At DAVIM unrelenting effort goes into mentoring and metamorphosing the uncut diamonds into finer human gems.

We at DAVIM believe that education is not about rote learning but it goes much beyond text books, classrooms and physical boundaries.

"We provide exposure to different sectors of the economy, social issues and environmental concerns to the students by way of seminars and workshops. These activities change young people's minds and way of thinking and prepare them for lifelong success".

Various co-curricular activities at DAVIM will help you to develop values of life such as Sustainability, Respect and Honesty, Self Awareness, Resilience and Courage, Open Mindedness and Compassion, Initiative and Commitment, Creativity, Resource-fulness, Action and Service, Mutual Love and Cooperation, Discipline, Focused Approach, Passion For Cleanliness and Environment in General and Time Management.

Dear Students, in the following pages you will find the description of diverse activities held at DAVIM in the last academic session each of which has had a specific learning outcome for the students.

We wish that in the course of time you will definitely turn out better citizens endowed not only with adequate skills but also with humanistic values. Last but not the least we wish that honesty and integrity would become an integral part of your personality.

With best wishes and blessings for the upcoming session.....

Dr. Neelam Gulati
